

NMB-01 : Train of Four Taken

NMB-01: Percentage of patients with a documented Train of Four (TOF) after last dose of non-depolarizing neuromuscular blocker and before extubation.

MPOG Concept ID	Neuromuscular Blocker Medication
10043	Atracurium
10129	Cisatracurium
10344	Pancuronium
10393	Rocuronium
10446	Vecuronium

Measure Time Period:
Anesthesia Start to Earliest Extubation*

Anesthesia start as determined by the **Anesthesia Start** phenotype.

*Earliest Extubation as determined by the earliest value resulted before **Anesthesia End** from the **Extubation Times** and **LMA Removal Times** phenotypes.
